

# Continue to Enhance Park Service Levels Through Additional Park & Trail Maintenance

- Complete small Capital Projects and Repairs system-wide
- Replace Grass Lawn Park picnic shelter
- Resurface Farrel-McWhirter Park equestrian arenas and upgrade building electrical systems
- Replace and repair sidewalks and pathways at Reservoir Park and Cascade View
- Improve customer service, maintenance and park security, with staff coverage at five community parks during peak evening hours

Current backlog of small Capital Projects and repairs is \$3.6 million. Funding will complete the most important projects and address safety concerns.

on-going: **\$434,000**  
one-time: **\$544,000**

This item upgrades the following community priorities:

# Invest in Idylwood Park & Parking Lot

- Idylwood Park is the only free access to recreational use on Lake Sammamish
- The park is enjoyed by more than 42,000 visitors during the summer. People come to Idylwood Park to swim, fish, picnic, stroll and relax.
- The levy proposal would fund the renovation and expansion of the 40 year old parking lot at the park site and provide safe access to site
- In addition, the levy proposal would fund the replacement of the concession and restroom building, which is a necessary structural and safety improvement

Overflowed parking at Idylwood park

With more than 500 visitors a day in the summer, parking is scarce and people make unsafe trips from the neighborhood walking along West Lake Sammamish Parkway with children.

Restrooms need renovation

Family enjoying a beautiful sunny day at Idylwood park

on-going: **\$4,500**  
one-time: **\$1,100,000**

# Invest in Neighborhood Parks - SE Redmond, Westside & NE Redmond

Three neighborhoods that have either limited park space or outdated parks have been identified for park development or renovation. With levy funding, the City will design and construct key elements from the list of desired projects below:

## Westside Park Renovation

Renovate 47 year-old park based on community-inspired master plan:

- Add playground in central location
- Add pavilion/gathering space
- Add woodland trails
- Enhance landscaping
- Improve Bridle Crest Trail entry
- Replace sports courts
- Add restroom

## SE Redmond Park— Master Plan and Phase I Development

Develop park master plan with the community. Existing 3 acre undeveloped site is in a growing residential neighborhood. Phase I improvements may include:

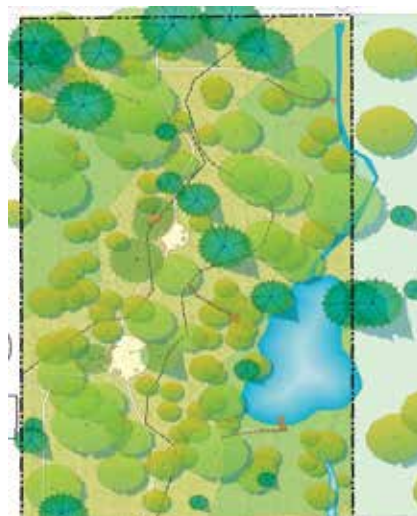

- Playground
- Volleyball court
- Community garden
- Landscaping and picnic area
- Walking paths

## NE Redmond Park— Phase I Development

Based on the existing master plan developed in coordination with the neighborhood, construct park amenities from the following list:

- Trails
- Play feature or equipment
- Treehouse
- Picnic area
- Stream crossing

on-going: **\$36,000**  
one-time: **\$2,400,000**
